

DOWN RIVER TRIPS

Gotham Landing
13 Miles ◊ 5 Hours

Otter Creek Landing 6 Miles ◊ 2 Hours

WISCONSIN
Riverside Resort

River Safety Tips:

- Always wear a life jacket.
- Swim and/or walk upriver from a sandbar. Never try to swim against the current. Swim with the current or diagonal until you reach the shore, then walk back upstream.
- Beware of drop-offs. Water level can go from inches to feet deep quickly.
- If severe weather approaches get off the river and flip over your canoe. Find some dense bushes or under a bridge and wait out the storm. Most severe storms move through rather quickly. Be patient and be aware of where you are.
- Toilet facilities are located at most landings. If you are camping within the Riverway, properly dispose of human and pet waste by burying waste.
- State law prohibits anyone from bringing firewood from greater than 10 miles of the camp area where it will be burned unless purchased from a WI DATCP certified vendor.
